

# instant uploads

## Eye-Fi Pro X2

The most powerful memory card ever. Class 6 read and write speeds for high performance shooting. Automatic RAW uploads for seamless editing. Instant uploads and automatic organization via Wi-Fi. And that's just the beginning...

- **performance.** Store thousands of photos with 8GB of Class 6 SDHC memory. Perfect for high megapixel cameras!
- **automatic.** Photos and videos from your camera whiz through your Wi-Fi network thanks to built-in 802.11n speed.
- **back up and organize.** Get photos and videos on your computer without lifting a finger.
- **effortless.** Share on your favorite website, even when your PC/Mac is off. Pick from Facebook®, Flickr®, YouTube™ and more.
- **endless.** Can free-up space for you after pictures are safely delivered. Never worry about running out of space again.
- **instant uploads.** Send photos and videos directly to your smartphone or tablet anywhere, even out at the beach or on a hike.
- **geotag.** Automatically map and organize photos by location.
- **on-the-go.** Upload from Wi-Fi hotspots across the US, including Starbucks, hotels, airports and more.
- **RAW power.** Upload RAW files wirelessly and get straight to editing!

# streamline your workflow

WITH THE EYE-FI® WIRELESS MEMORY CARD

### 8GB Memory

Provides storage for thousands of photos for your high-megapixel camera. Great performance with Class 6 read and write speeds.

### Wireless JPEG, RAW & Video Uploads

Photos and videos whiz through thanks to the power of built-in 802.11n wireless speed.

### Automatic Backups & Organization

Photos and videos automatically fly to your computer in date-based folders or in iPhoto via Wi-Fi. It's so easy to be organized!

### Online Sharing

Choose from 25 sharing websites or even your own FTP server!

### Endless Memory

Always running out of space? Your Eye-Fi card can free up space for you once your photos and videos have been safely delivered. It's like having an endless memory card!

### Direct Mode

On-the-go? Your photos and videos can fly directly\* to your smartphone, tablet or laptop using Direct Mode, even out at the beach or on a hike.

### Geotagging

Never forget where that photo was taken again. Photos are automatically tagged to show where they were taken using Wi-Fi Positioning System technology.

### Hotspot Access (1 year included)

Upload from hundreds of thousands of Wi-Fi hotspots across the US, including Starbucks, hotels and more.
